Hartke's A Series Bass Combos offer the transient response and tone of aluminum cone drivers in four compact designs (A25, A35, A70, A100), all with an arsenal of features that bass players crave.

The A25 (25 watts, 8" driver) and A35 (35 watts, 10" driver) are small-footprint bass combos that feature matched aluminum cone drivers in specially designed cabinets that can be used in the typical flat floor position or in a special kickback position for increased high-end clarity and sound dispersion. With professional features like Bass, Mid, Treble and Bright tone controls, bipolar circuitry and Effects Loop send and return jacks, these combos are as comprehensive as they are versatile. The A25 and A35 are perfect for bedroom practice/jam sessions and small rehearsal spaces, especially given their dedicated CD/MP3 inputs and Headphone outputs.

The A70 (70 watts, 12" driver) and A100 (100 watts, 15" driver) are complete bass combos that also feature matched aluminum cone drivers in dual-position (flat or kickback) cabinet designs for increased high-end clarity and sound dispersion. Like the smaller models, the A70 and A100 have bipolar circuitry and Effects Loop send and return jacks, but also include Bass, Treble and 7-band graphic EQ tone controls. These combos are ideal for use in small venues and home recording studios. Plus, their dedicated CD/MP3 inputs and Headphone outputs makes them exceptional practice amps.

And with exceptionally rugged cabinet construction, Hartke's A Series Bass Combos are ready to go wherever needed.

FEATURES

A25

- 8" aluminum cone driver
- 25 watts of output power
- Bass, Mid, Treble and Bright tone controls
- Line level Effects Loop send and return jacks
- Dedicated CD/MP3 input
- Headphone, Speaker and Direct outputs
- Dual-position (flat or kickback) cabinet design
- Rugged construction

A70

- 12" aluminum cone driver
- 70 watts of output power
- Bass, Treble and 7-band graphic EQ tone controls
- Line level Effects Loop send and return jacks
- Dedicated CD/MP3 input
- Headphone, Speaker and Direct outputs
- Dual position (flat or kickback) cabinet design
- Rugged construction

A35

- 10" aluminum cone driver
- 35 watts of output power
- Bass, Mid, Treble and Bright tone controls
- Line level Effects Loop send and return jacks
- Dedicated CD/MP3 input
- Headphone, Speaker and Direct outputs
- Dual-position (flat or kickback) cabinet design
- Rugged construction

A100

- 15" aluminum cone driver
- 100 watts of output power
- Bass, Treble and 7-band graphic EQ tone controls
- Line level Effects Loop send and return jacks
- Dedicated CD/MP3 input
- Headphone, Speaker and Direct outputs
- Dual-position (flat or kickback) cabinet design
- Rugged construction
