

Connecting the BOSS TONE STUDIO iOS App to the GT-1000 Unit

© 2018 Roland Corporation

04

For details on how to use BOSS TONE STUDIO, refer to the "Using BOSS TONE STUDIO for GT-1000" PDF.

1. Power-on the GT-1000 unit and the mobile device.

* Before you continue, turn on the Bluetooth switch of the GT-1000. Make this setting in [MENU] → "HARDWARE SETTING" → "OTHER." (With the factory settings, this is off.)

2. In your mobile device's settings, turn Bluetooth on.

NOTE

Even if "GT-1000 MIDI" is shown in the "DEVICES" list, don't tap it.

3. Start the "BOSS TONE STUDIO for GT-1000" app that you installed in your mobile device.

4. Tap [Bluetooth MIDI DEVICE] that appears in the screen, and then tap "GT-1000."

- * If you changed the Bluetooth ID (p. 7), the changed number is shown following "GT-1000." If "Bluetooth Pairing Request" appears, tap "Pair."

Verify that "Connected" is shown.

KATANA-AIR MIDI Input / Output	Offline
GT-1000 Input / Output	<u>Connected</u>

5. Tap [**<Back**] to return to the previous screen.

6. Verify that “GT-1000 MIDI (Bluetooth)” is shown for “CONNECT.”

7. Tap [**OK**] to start communication.

If you can't connect

Check each of the following five items one at a time.

1 In the settings of the GT-1000 unit, is the Bluetooth function turned on?

Verify that the GT-1000 unit's Bluetooth indicator is blinking or lit.

If it is unlit, press the [Bluetooth] button to make it blink or light.

2 In step 2 of the procedure (p. 2), could you have tapped a model name shown on the mobile device?

When you turn the Bluetooth switch on in step 2, “GT-1000 MIDI” might appear in the list of “DEVICES” but you should not tap it. If you tapped

it, clear the pairing, and try the procedure again from step 1.

Clearing the pairing

- 1. Tap the “i” located beside “Connected,” and then “Forget This Device.”**

- 2. Turn the Bluetooth switch off.**

3 Turn Bluetooth on and off once again

Turn Bluetooth on/off again.

4 Close all apps, and try the procedure again from step 1 (p. 2)

If you've checked **1–3** and still cannot connect to the app, close all apps that are running on your mobile device.

If the GT-1000 is paired, clear the pairing.

Closing the app

Double-click the home button, and swipe up on the app screen.

* If you're using the iPhone X, the procedure for closing an app is different. Close the app as appropriate for the iPhone X.

5 Power-off the mobile device and the GT-1000 unit, and then power them on again

If you've checked **1–4** and still cannot connect to the app, power-off the mobile device and the GT-1000, wait for about 10 seconds, and power them on again.

If the GT-1000 is paired, clear the pairing.

If you've checked **1–5** and still cannot connect to the app, contact your dealer or a Roland customer service center.

Changing the Bluetooth ID

Here's how you can specify "1" as the Bluetooth ID.

- 1. Press the GT-1000's MENU button.**
- 2. Choose "HARDWARE SETTING."**
- 3. Choose "OTHER".**
- 4. Change the Bluetooth ID parameter.**

Value: OFF, 1–9

If the setting was made correctly, the Bluetooth MIDI DEVICE screen of BOSS TONE STUDIO indicates "GT-1000_1." If, after specifying the number "1" or 2, you want to return to a state in which nothing is specified, set the parameter to "OFF."
